September 2, 2020

Dear DoDEA Pacific West - Guam families,

As you are aware, military installations in Guam remain in Health Protection condition (HPCON) Charlie. As such, our brick and mortar schools will maintain remote learning. We will continue to work closely with our military installations to evaluate local environmental conditions and determine when in-person learning will resume. When conditions permit resuming face-to-face instruction we will promptly notify families and share further details regarding what to expect during the transition.

As a reminder, families with children can participate in the Grab-and-Go meal program from 10 a.m. to noon at Anderson Elementary/Middle School, Guam High School, and McCool Elementary School. The Grab-and-Go meal program makes meals available for students who participate in the free and reduced meal program. Families with children may also purchase Grab-and-Go meals. In order to pick up meals, families will be asked to wear appropriate face coverings and adhere to social distancing guidelines.

When we transition to in-person instruction there will be mitigation strategies in place for the health and safety of students and employees. These mitigation strategies include social distancing to the greatest extent possible, face masks, healthy hygiene practices, frequent cleaning and disinfecting of high-touch surfaces, clear physical barriers for tabletops, and signage to remind everyone who enters our building of these protective measures. Families can access more information about our return to school plan at <https://www.dodea.edu/Pacific/return-to-school.cfm>.

We sincerely appreciate your continued partnership and flexibility. Together, we will ensure continuity in education for all students.

Gail Wiley
Community Superintendent
